

BECOME A SPONSOR!

SPONSORSHIP IS CRITICAL IN SUPPORTING ACFF'S MISSION

2024 INITIATIVES:

SUPPORT FOR FILMMAKERS

Screening fees do more than secure our rights to show certain films. Fees support the filmmakers, which is critical for students and those from marginalized backgrounds, and exceptional filmmakers earn cash awards.

GUEST SPEAKERS

Financial support allows us to provide guest speakers who share their time and expertise to create supplemental and interactive programming to accompany festival films.

YOUTH ENGAGEMENT & EDUCATION

Our future depends on empowering youth to learn about and protect their world! Each festival season incorporates free hands-on educational experiences for kids. The "Next Gen Capture Conservation Video Contest" encourages students to create conservation videos of their own.

Your contribution helps us accomplish all of the initiatives above along with the less glamorous costs of supplies, insurance, permits, and other necessities to remain active, relevant, and effective. If a specific initiative is of particular interest to you, we can acknowledge your support accordingly.

COMMUNICATIONS & OUTREACH

Our team develops informative and inspiring content about our events, conservation issues, BIPOC and diversity initiatives, and learning opportunities shared with constituents throughout the year.

COMMUNITY BUILDING

Active partnerships with arts and conservation organizations throughout our region expand our audiences and strengthen our collective impact.

2024 FESTIVAL
MARCH
7-10

Frank Center / Shepherd University Campus
SHEPHERDSTOWN, WEST VIRGINIA
